Home: Berlin (Germany)

ABOUT ME

I am well-equipped to design and build scalable AI-driven systems, intelligent automation platforms, and robust backend architectures. With strong foundations in machine learning, LLM integration, and distributed system design, I focus on delivering efficient, production-ready solutions that solve real business problems. I am driven by building high-impact AI applications, optimizing system performance, and collaborating with cross-functional teams to translate complex technical challenges into scalable software solutions.

WORK EXPERIENCE

Greyd – Munich, Germany

Artificial Intelligence Engineer

[01/04/2025 – 28/02/2026]

- Architected and delivered an internal AI-powered customer support automation platform using a scalable multi-service backend architecture, reducing average response times by **40–60%**.
- Designed and implemented Retrieval-Augmented Generation (RAG) pipelines to enable context-aware responses, improving answer accuracy and relevance by **25–35%** over baseline LLM outputs.
- Engineered and maintained vector database infrastructure (Qdrant) to support semantic search and multi-collection retrieval, increasing retrieval precision by **~30%**.
- Fine-tuned and optimized language models for domain-specific support workflows, reducing hallucinations and irrelevant outputs by **20–30%**.
- Developed modular backend services (FastAPI / Node.js) for conversation orchestration, AI routing, ticket generation, and analytics, lowering system latency by **~25%**.
- Built robust data ingestion pipelines (web scraping, preprocessing, chunking, structured JSONL datasets), reducing knowledge base update time by **~50%** and improving data reliability.
- Designed and implemented an API gateway layer to orchestrate AI services, including request routing, authentication, and role-based access control, enabling **2–3x scalability in request handling**.
- Containerized and deployed services using Docker within a microservices architecture, improving deployment efficiency by **~40%** and reducing environment inconsistencies.
- Automated high-volume, repetitive support queries, reducing manual support workload by **35–50%** and improving operational efficiency.
- Produced comprehensive technical documentation covering system architecture, APIs, and deployment workflows, reducing developer onboarding time by **~30%**.

Migrando Law Company – Cottbus, Brandenburg, Germany

Software Engineer

[01/08/2024 – 31/12/2024]

- Assisted in creating a web-based solution for a manufacturing company, utilizing HubSpot, Zoho CRM, JetAdmin, PHP, WordPress, and GitHub, and developed analytical dashboards to ensure effective and high-quality outcomes.

Wankel Supertec – Cottbus, Brandenburg, Germany

Software Engineer

[01/03/2024 – 30/11/2024]

Contributed to developing a web-based solution for an engine manufacturing company, leveraging HubSpot, Zoho CRM, JetAdmin, PHP, WordPress, and GitHub to deliver efficient, high-quality results.

EDUCATION AND TRAINING

Masters in Artificial Intelligence

Brandenburg University of Technology Cottbus–Senftenberg [16/10/2023 – Current]

City: Cottbus | Country: Germany

Bachelors in Computer Sciences

Bahria University [14/02/2016 – 19/01/2020]

CERTIFICATIONS

[Amazon AWS, 30/03/2025]

AWS Cloud Practitioner Essentials

Mode of learning: Online

SKILLS

Programming Languages

Html / Java / CSS / Bootstrap / Javascript / PHP / React.js / Node.js / angular.js / MERN.JS / ReactJS, AngularJS, Material UI, JavaScript, JQuery, SASS, HTML, CSS / PHP Code Igniter / laravel

CMS

Wordpress / Shopify / Magento / Open Cart / Wix

Digital Marketing

Social Media Advertisement / Retargeting / Search Engine Optimization & Search Engine Marketing / Google - Google Business, Google ADS & Google Analytics / Graphics Designing / Social media markering / EMAIL MARKETING / Reels&T iktok / Brand Development / SMM / SEO / SMO / SMA / SEM / PPC

Extra Skills

Photoshop / Illustrator / Video Editing / MS Office / SSRS

CRMs

hubspot / zoho / perfex

AI & Machine Learning

LLMs / Python / RAGS / vector DB / Embeddings & Semantic Search / NLP / OpenAI / Claude / Model Evaluation & Optimization / Gemini / AI Model Deployment / Fine-Tuning (LLMs) / Prompt Engineering

LANGUAGE SKILLS

Other language(s):

German

LISTENING A2 **READING** A2 **WRITING** A2

SPOKEN PRODUCTION A2 **SPOKEN INTERACTION** A2

English

LISTENING C1 **READING** C1 **WRITING** C1

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
